2-LEG MLM PLAN
+ COMPANY CALCULATION

Corrected 50:50 Balance Edition

■10,000 AI Course
2 Legs - Unlimited Depth
10% Matching
18 Rank & Reward Journey
Rank Balance: 50% A + 50% B
Company Financial Model

Internal planning and team-training document. Figures are illustrative and not guaranteed earnings or audited profit forecasts.

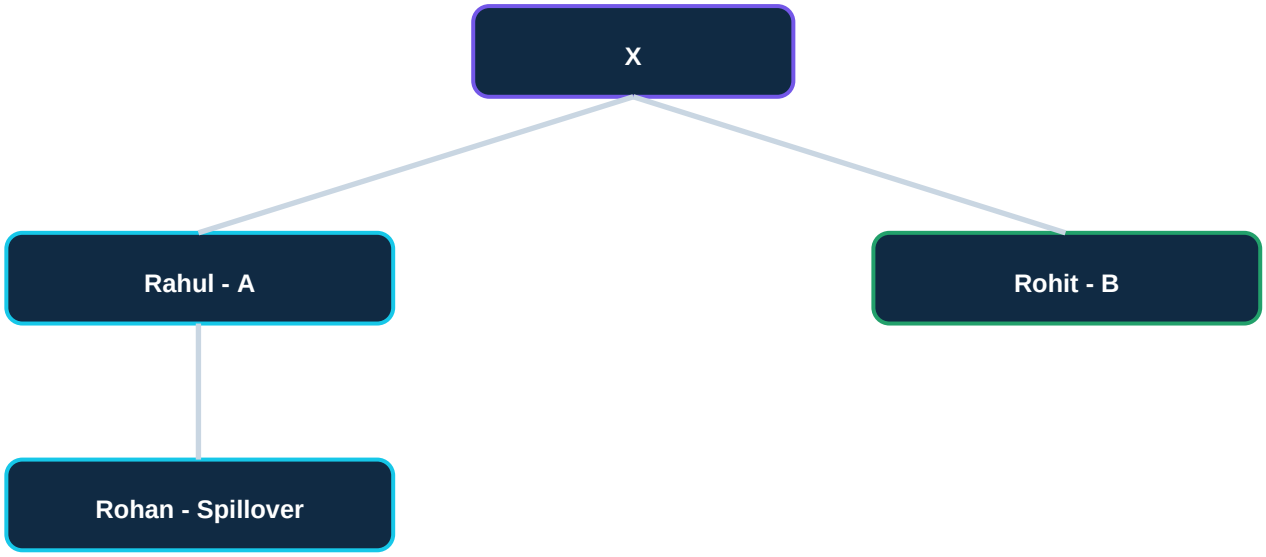
1. Compensation Plan Snapshot

COURSE PRICE	STRUCTURE	MATCHING	RANK BALANCE
■10,000	2 LEGS	10%	50 : 50

Feature	Plan Rule
Depth	Unlimited depth under A/Left and B/Right legs
Income heads	Matching Income + Rank/Reward only
Matching basis	1:1; weaker eligible leg determines matched CV
Rank balance rule	Every rank target requires 50% eligible CV from A Leg + 50% eligible CV from B Leg
Carry forward	Unused eligible strong-leg CV carries forward; no routine month-end flush
Top matching cap	■65,000/day in the top cap band
Reward logic	Rank target + exact 50:50 balance + verified sales + qualification/funded rules

2. Binary Placement & Spillover

Every ID has only two immediate placement positions. If X places Rahul in A/Left and Rohit in B/Right, a later person such as Rohan cannot become a third direct position under X. If X selects A Leg for Rohan, Rohan is placed deeper inside A Leg under the published spillover rule.



Person	Sponsor	Placement Parent	X's Main Leg
Rahul	X	X	A / Left
Rohit	X	X	B / Right
Rohan	X	Rahul	A / Left

3. Matching Income & Carry Forward

Matching is calculated on the weaker eligible leg. Example: A/Left = ■40 lakh and B/Right = ■30 lakh.

A / LEFT CV	B / RIGHT CV	MATCHED CV	MATCHING @ 10%
■40 LAKH	■30 LAKH	■30 LAKH	■3 LAKH

Carry forward: ■10 lakh unused eligible A-side CV remains for future matching, subject to eligibility, refunds, rank caps and final plan terms.

Important distinction: Matching can occur on weaker-leg volume, but **rank/reward qualification requires the full 50:50 balance shown in the rank table.**

4. Rank-Based Matching Capping

Rank Band	Daily Cap	30-Day Theoretical Maximum
Starter / Achiever	■5,000	■1.5 Lakh
Star / Bronze	■10,000	■3 Lakh
Silver / Gold	■20,000	■6 Lakh
Platinum / Sapphire	■35,000	■10.5 Lakh
Ruby / Diamond	■50,000	■15 Lakh
Crown / Ambassador+	■65,000	■19.5 Lakh

High-volume illustration: ■1.80 crore monthly matched weaker-leg CV × 10% = ■18 lakh matching. If qualified for a funded/vested milestone benefit, total may be higher. This is not guaranteed or typical.

5. Corrected 18-Rank Reward Journey - Exact 50:50 Balance

For every rank below, total Group CV must be split equally: **50% A Leg + 50% B Leg.**

#	Rank	Total Group CV	A Leg 50%	B Leg 50%	Milestone Reward
1	Associate	■20K	■10K	■10K	Recognition
2	Achiever	■1L	■50K	■50K	Certificate
3	Star	■3L	■1.5L	■1.5L	■5K
4	Bronze	■7.5L	■3.75L	■3.75L	■15K
5	Silver	■15L	■7.5L	■7.5L	■30K
6	Gold	■30L	■15L	■15L	■60K
7	Platinum	■60L	■30L	■30L	■1.25L
8	Pearl	■1.2Cr	■60L	■60L	■2.5L
9	Sapphire	■2.5Cr	■1.25Cr	■1.25Cr	■5L
10	Ruby	■5Cr	■2.5Cr	■2.5Cr	■10L
11	Emerald	■10Cr	■5Cr	■5Cr	■20L
12	Diamond	■20Cr	■10Cr	■10Cr	■35L
13	Blue Diamond	■35Cr	■17.5Cr	■17.5Cr	■60L
14	Royal Diamond	■50Cr	■25Cr	■25Cr	■1Cr
15	Crown Diamond	■75Cr	■37.5Cr	■37.5Cr	■1.5Cr
16	Ambassador	■100Cr	■50Cr	■50Cr	■2Cr
17	Global Ambassador	■200Cr	■100Cr	■100Cr	■4Cr
18	Legacy Ambassador	■500Cr	■250Cr	■250Cr	Up to ■10Cr*

*Reward qualification also remains subject to verified sales, compliance and funded/vesting rules. 50:50 is the rank-balance requirement in this corrected edition.

6. Company Financial Model - Planning Assumptions

This section is for company management and remains separate from networker rank qualification.

COURSE PRICE	NORMAL FIELD PAYOUT	HARD PAYOUT CEILING	OPERATING COST ASSUMPTION
■10,000	15%	25%	15%

Scenario	Gross Sale	Field Payout	Operating Cost	Estimated Pre-tax Profit*
Normal planning	■10,000	■1,500 (15%)	■1,500 (15%)	■7,000 (70%)
Hard-ceiling planning	■10,000	■2,500 (25%)	■1,500 (15%)	■6,000 (60%)

*Planning estimate only. Actual taxes, refunds, payment fees, course delivery, salaries, marketing and other expenses can change results.

7. Company Scale Calculation - 1 Lakh to 50 Lakh IDs

IDs	Gross Sales	15% Field Payout	Est. Profit @ Normal	25% Max Payout	Est. Profit @ Ceiling
1 Lakh	■100 Cr	■15 Cr	■70 Cr	■25 Cr	■60 Cr
5 Lakh	■500 Cr	■75 Cr	■350 Cr	■125 Cr	■300 Cr
10 Lakh	■1,000 Cr	■150 Cr	■700 Cr	■250 Cr	■600 Cr
20 Lakh	■2,000 Cr	■300 Cr	■1,400 Cr	■500 Cr	■1,200 Cr
30 Lakh	■3,000 Cr	■450 Cr	■2,100 Cr	■750 Cr	■1,800 Cr
40 Lakh	■4,000 Cr	■600 Cr	■2,800 Cr	■1,000 Cr	■2,400 Cr
50 Lakh	■5,000 Cr	■750 Cr	■3,500 Cr	■1,250 Cr	■3,000 Cr

50 lakh IDs: ■5,000 Cr gross sales. Normal 15% field payout = ■750 Cr; with 15% operating-cost assumption, estimated pre-tax profit = ■3,500 Cr. At 25% payout ceiling, field payout = ■1,250 Cr and estimated pre-tax profit = ■3,000 Cr.

8. Sustainability & Control Rules

Control	Purpose
50:50 rank balance	Every reward-rank target requires equal eligible CV from A and B legs.
Verified sales CV	Compensation should be based on genuine AI course/service sales.
Payout ceiling	Keep total eligible field liability within the published company-wide ceiling.
Refund reversal	Reverse related CV/payout for refunds and chargebacks.
Reward funding / vesting	Large rewards should not become immediate unfunded liabilities.
Sponsor + placement records	Keep sponsor relationship separate from binary genealogy placement.
Professional review	Final compensation, tax/GST and direct-selling compliance should be reviewed before launch.

Business-planning model only. Networker income, rewards and company profit are not guaranteed.
